CONTENTS

281 AHOKAS, H.: Genetic instability of a barley shrunken mutant
263 ARNASON, U. and BEST, P. B.: Phylogenetic relationships within the Mysticeti (whalebone whales) based upon studies of highly repetitive DNA in all extant species
41 BOTHMER, R. VON, SALOMON, B. and LINDE-LAURSEN, I.: Cytogenetics in hybrids of *Hordeum jubatum* and *H. tetraploidum* with cultivated barley (*H. vulgare*)
161 CHOWDHARY, B. P., HARBITZ, I., DAVIES, W. and GUSTAVSSON, I.: Chromosomal localization of the glucose phosphate isomerase (GPI) gene in cattle, sheep and goat by in situ hybridization—chromosomal banding homology versus molecular conservation in Bovidae
47 CHRISTIDIS, L., SHAW, D. D. and SCHODDE, R.: Chromosomal evolution in parrots, lorikeets and cockatoos (Aves: Psittaciformes)
277 DEDONYTE, V., DOMŽA, B., LAZUTKA, J. R. and LEKEVIČIUS, R. K.: Sister chromatid exchanges and lymphocyte hyperdiploidy in women with a history of reproductive wastage
65 DROUIN, R., LEMIEUX, N. and RICHER, C.-L.: High-resolution R-banding at the 1250-band level. III. Comparative analysis of morphologic and dynamic R-band patterns (RHG and RBG)
253 HARTLEY, S. E.: C, Q, and restriction enzyme banding of the chromosomes in brook trout (*Salvelinus fontinalis*) and Arctic charr (*Salvelinus alpinus*)
201 IANNUZZI, L., DI MEO, G. P., PERUCATTI, A., FERRARA, L. and GUSTAVSSON, I.: Sister chromatid exchange in chromosomes of cattle from three different breeds reared under similar conditions
125 ISLAM, M. R. and SHEPHERD, K. W.: Analyses of phenotypes of recombinants from testcross progenies involving genes at the *L* group, conferring resistance to rust in flax
177 JOKELA, P. and PORTIN, P.: Effect of extra Y chromosome on number and fluctuating asymmetry of sternopleural bristles in *Drosophila melanogaster*
189 KHADEM, M. and KRIMBAS, C. B.: Studies of the species barrier between *Drosophila madeirensis* and *Drosophila subobscura*. II. Genetic analysis of developmental incompatibilities in hybrids
107 LEWANDOWSKI, A. and MEJNARTOWICZ, L.: Linkage analysis of allozyme loci in Polish larch (*Larix decidua* subsp. *polonica* (Racib.) Domin)
207 LIMA-DE-FARIA, A., MITELMAN, F., BLOMBERG, J. and PFEIFER-OHLSSON, S.: Telomeric location of retroviral oncogenes in humans
237 LINDE-LAURSEN, I. and FREDERIKSEN, S.: Comparison of the Giemsa C-banded karyotypes of *Dasypyrum villosum* (2x) and *D. breviaristatum* (4x) from Greece
117 LU, B.-R., SALOMON, B. and BOTHMER, R. VON: Meiotic studies of the hybrids among *Pseudoroegneria cognata, Elymus semicostatus* and *E. pendulinus* (Poaceae)
57 LUNDQVIST, A.: Four-locus *S*-gene control of self-incompatibility made probable in *Lilium martagon* (Liliaceae)
285 OUDMAN, L.: A locus in *Drosophila melanogaster* affecting heat resistance
85 PALYGA, J.: Genetic polymorphism of histone H1.b in duck erythrocytes
103 PELGER, S.: Localization of the genes encoding hordein "X" to chromosome 5 in barley
141 PETERSEN, G.: Intergeneric hybridization between *Hordeum* and *Secale*. II. Analysis of meiosis in hybrids
227 PICKERING, R. A.: The production of fertile triploid hybrids from crosses between *Hordeum vulgare* L. (2n = 4x = 28) and *H. bulbosum* L. (2n = 2x = 14)
79 PIGLIUCCI, M., MALVOTTI, M. E. and FINESCHI, S.: Relationships between protein polymorphism and phenotypic variation in *Populus deltoides* Bartr.
197 PORTIN, P. and RANTANEN, M.: Interaction of master mind, big brain, neuralized and Notch genes of *Drosophila melanogaster* as expressed in adult morphology

97 Pradat, P. and Robert, E.: Is trisomy 18 increasing in Sweden? An analysis of the syndrome during a ten year period and a comparison with a French registry
35 Salomon, B., Bothmer, R. von and Jacobsen, N.: Intergeneric crosses between *Hordeum* and North American *Elymus* (Poaceae, Triticeae)
15 Saura, A. O., Heino, T. I. and Sorsa, V.: Electron micrograph maps of divisions 51 through 60 of thin sectioned polytene 2R chromosome of *Drosophila melanogaster*
91 Staiber, W.: Characterization of heterochromatin of germ line limited and soma chromosomes in *Acricotopus lucidus* (Diptera, Chironomidae) by differential banding methods
131 Terol, J., Perez-Alonso, M. and de Frutos, R.: In situ localization of the *Antennapedia* gene on the chromosomes of nine *Drosophila* species of the *obscura* group
171 Tesfaye, T., Getachew, B. and Worede, M.: Morphological diversity in tetraploid wheat landrace populations from the central highlands of Ethiopia
213 Thörn, E. C.: Crossability barriers between barley (*Hordeum vulgare* L.) and *Hordeum bulbosum* L. Genetical studies of the partial incompatibility mechanism in the barley cultivars 'Vada' and 'Vogelsanger Gold'
219 Wang, X.-R., Szmidt, A. E. and Lindgren, D.: Allozyme differentiation among populations of *Pinus sylvestris* (L.) from Sweden and China
271 Vieira, R., Mello-Sampayo, T., Queiroz, A., Morais, L. and Viegas, W. S.: Chromosome instability in intergeneric hybrids of *Triticum aestivum* × tritordeum (amphiploid *Hordeum chilense* × *Triticum turgidum*) with high dosage of Ph_1 gene of wheat
111 Winking, H., Bostelmann, H. and Fredga, K.: Incidence of double-band HSRs in chromosome 1 of the house mouse, *Mus musculus musculus*, from Öland (Sweden): A population study
245 Vinogradov, A. E., Borkin, L. J., Günther, R. and Rosanov, J. M.: Two germ cell lineages with genomes of different species in one and the same animal
1 Zabalou, S., Alahiotis, S. N. and Yannopoulos, G.: Seasonal analysis of *23.5 MRF (hobo)* and P-M hybrid dysgenesis determinants in a Greek natural population of *Drosophila melanogaster*
